- Interpretation (for spoken languages)
- Language Lessons

in various languages.

"My husband and I greatly appreciated having Akari. We had been daunted by the language barrier. However, with Akari's interpretation, we were able to share our appreciation for our son-in-law's family as well as our feelings toward our daughter. We were also able to greet and interact with every guest. More than anything, we really liked Akari's personality and thank her from the bottom of our hearts."

— Mr. and Mrs. Matsumoto, a bride's parents

"Before I met Akari, I had several instructors with whom I never made real progress. I started studying with Akari five months ago and I already feel the difference. Her lessons are totally tailored to my level and needs, her patience has no limit, and her contribution to my lessons have exceeded my expectation. I highly recommend her as a teacher."

— Isabelle S. from France

"Akari has played an integral role in the expansion of our operations, and we're extremely grateful that Akari continues to share her talents and energy to ensure the success of our business."

— Melissa W., Owner/Manager of Kona Ocean Experience

"Her communication and the care she has for representing a client's intended communication simply sets a new standard in the world of translation."

— Ty B., President of Tala Records
